

OF DELIVERING SUPERIOR BATH EXPERIENCES
IN INDIA AND ACROSS THE WORLD.

ON A MISSION TO REVOLUTIONISE BATH SPACES, SINCE 1997.

Watertec was set up in 1997 in Coimbatore, Tamil Nadu, as a joint venture between UMS Group, Coimbatore, Watertec Malaysia, and South Asian Investments, Sri Lanka. Our journey began with a single-minded mission – to revolutionize bath spaces with Superior virgin grade engineering polymer products.

We started off as a polymer-based products company and over the years have emerged as an end-to-end bathroom and plumbing solutions provider. Today, we offer Drip free, leak free & corrosion free products.

Watertec is a market leader in the polymer-based bath fittings space, manufacturing close to over 32 million units, and counting!

Our central focus has always been on continuously enhancing and widening the range of products offered both organically and inorganically.
