WINNER

A study tour to Europe

1st RUNNER UP

A study tour to East Asia

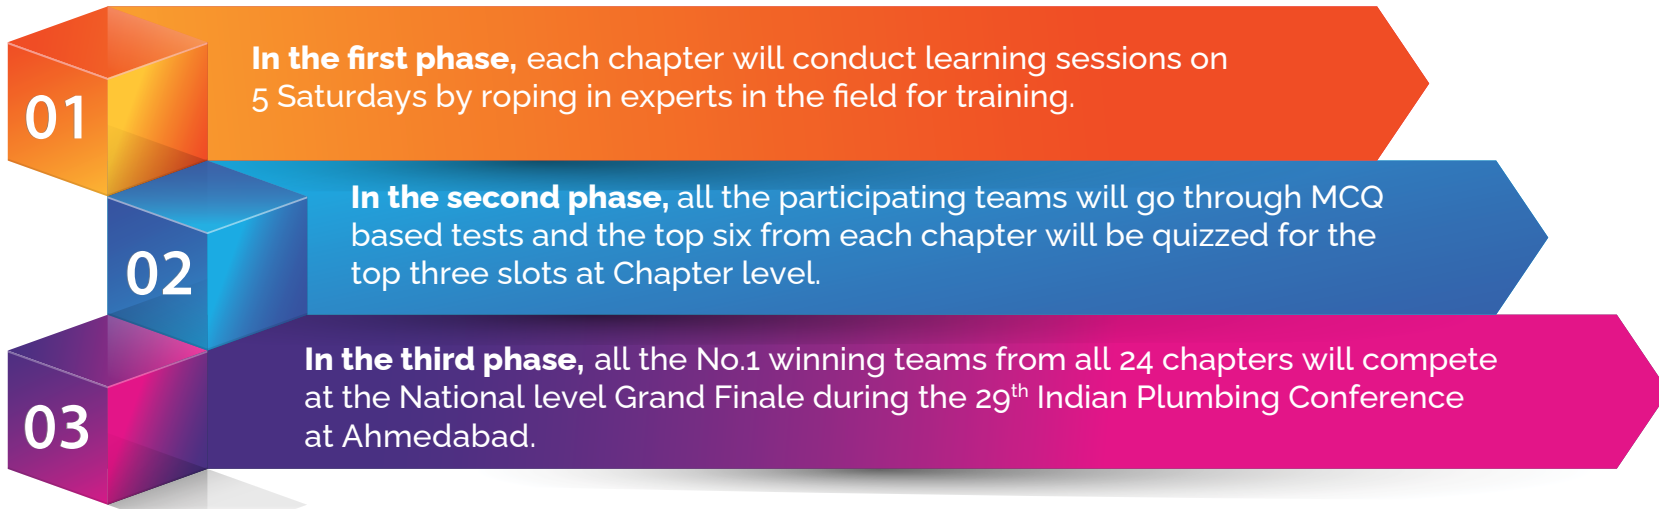

2nd RUNNER UP

A study tour to Middle East Asia

What is the FORMAT?

What about the TOPICS?

“The blood running in our body is similar to plumbing systems in a building. A building's plumbing is very crucial for its proper working and should not be neglected.”

Ar. Habeeb Khan

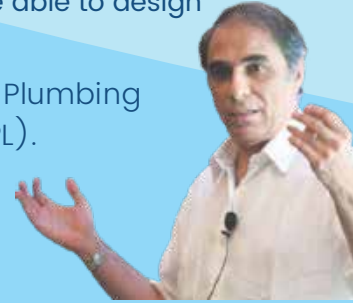

Former President, Council of Architecture

I feel what Indian Plumbing Association has been showcasing over the years through IPPL is a must learning for each and every architect. I can assure you that if architects know more about plumbing and more about structures, they will be able to design buildings better.

I fully endorse the Indian Plumbing Professionals League (IPPL).

Ar. Hafeez Contractor

“Let's make people understand and educate them on the need for saving water. If you really want to save water it will be saving Education, Education, Education and Acceptance, Acceptance, Acceptance.”

Rajan Bandelkar

Former Chairman, NAREDCO

“The IPPL bridges the gap towards correct and codal based plumbing taught by the best plumbing Guru's of India. Participate in IPPL to enhance your knowledge on latest and revised current plumbing codes of the country.”

Gurmit Singh Arora

National President, IPA & Chairman, CII-IGBC

“Plumbing is a science directly connected to human health, hygiene and environment”

Dr. Anil Sahasrabudhe

Former Chairman, AICTE
