

TechTalk

NAVI MUMBAI CHAPTER

IPA Navi Mumbai Chapter, in association with ISHRAE Navi Mumbai Chapter, conducted its first Tech Talk for members of IPA and ISHRAE on 13th June 2018 at NISM, Vashi.

Ebara Machinery India Private Limited supported the event by presenting pump basics, applications related to plumbing and HVAC. The compact group of participants had a lot of interaction with the sponsor on various technical issues. All the participants appreciated the event and looked forward to more of such events.

IPA Navi Mumbai, even though it is a new entrant to IPA is working hard to increase knowledge levels of its members. This 'Tech Talk' is the first in the series to increase awareness on Pumping Systems for plumbing and HVAC.

Mr. Chandrasekhar of Ebara explaining pump details
