

IPA HYDERABAD CHAPTER

IPA Hyderabad conducted a remarkable event at the Radisson Hotel on the 23rd of June. The event, sponsored by Lubrizol, brought together professionals and industry leaders from the construction and real estate sectors. Chairman of IPA Hyderabad Chapter (IPAHC), Sanjay Bhilare, took the stage to provide an overview of the events and activities of IPA at both the national and chapter levels. His address emphasized IPA's commitment to promoting excellence in the plumbing industry and facilitating knowledge-sharing among professionals.

The event's Guest of Honor was Mr. Suresh Kumar, Senior Vice President of Prestige Group. With his extensive experience in the construction industry, Mr. Kumar shared valuable insights into the development and progress of the construction sector in Hyderabad. His presentation offered attendees a glimpse into the exciting opportunities and future prospects that lie ahead for the city's real estate landscape.

Mrs. T. Manjula, an MEP consultant, delivered a captivating keynote presentation on "Zoning of Water Distribution in High-Rise Structures." Her expertise shed light on the intricacies of water management in tall buildings, addressing the unique challenges faced by such structures. Attendees gained valuable knowledge and best practices for efficient water distribution systems in high-rise buildings.

Another distinguished guest, Mr. Sunil Chandra Reddy, President of NAREDCO Hyderabad, provided valuable insights into the available real estate spaces in Hyderabad and the future developments shaping the city's landscape. His expertise and understanding of the local market offered attendees a comprehensive overview of the current trends and potential investment opportunities in the region.

The event also featured an elaborate technical product presentation by the Lubrizol team. As the sponsor, Lubrizol showcased their innovative solutions and technologies, highlighting their contributions to the construction and plumbing industries. Attendees gained insights into Lubrizol's cutting-edge products and their role in enhancing the performance and efficiency of plumbing systems.

Here is some glimpses of the event:
